E-cigarette Fire Safety

Fires with electronic cigarettes (e-cigarettes) can happen while they are being used, charged or transported. Battery failures can lead to small explosions.

Use e-cigarettes with caution and follow these safety tips:

- > Do not charge your e-cigarette with a phone or tablet charger.
- Replace the batteries if they get wet or damaged.
- Do not charge your e-cigarette overnight.
- Protect your e-cigarette from extreme temperatures.
- Store loose batteries for your e-cigarette in a case. Keep them away from metal objects.
