

Install. Inspect. Protect.

Smoke Alarms Save Lives.

More than 3,000 people die in home fires every year. Many of these deaths occurred in homes without working smoke alarms.

Protect yourself, your family and firefighters by doing your part to get out before firefighters risk their lives to come in:

Install smoke alarms both inside and outside of bedrooms and sleeping areas and on every level of your home. Test them monthly. Change the batteries as instructed. Consider installing sprinklers in your home.

For more information, go to www.usfa.dhs.gov/smokealarms.

U.S. Fire Administration Mission Statement

We provide national leadership to foster a solid foundation for local fire and emergency services for prevention, preparedness and response.
