The FESHE Model Curriculum: Standardizing Education and Teaching Firefighter Safety

FESHE institutions are adopting peer- and NFA-developed model courses that form a national curriculum from which current and future leaders can learn and advocate critical safety principles. They are committed to doing their part to promote firefighter safety within their student ranks. The lower- and upper-level model curricula include:

ASSOCIATE'S COURSES

Core

Building Construction for Fire Protection
Fire Behavior and Combustion Prevention
Fire Protection Hydraulics and Water Supply
Fire Protection Systems
Principles of Emergency Services

Non-Core

Introduction to Fire & Emergency Services Administration
Occupational Health and Safety
Legal Aspects of the Emergency Services
Hazardous Materials Chemistry Strategy and Tactics
Fire Investigation I
Fire Investigation II

Fire Prevention Core

Fire Plans Review
Fire Inspections Principles
Fire and Life Safety Education

Fire Protection Engineering Core

Advanced Concepts in Structural Fire Protection
Human Behavior in Fire
Performance-based Design Fire Protection

FESHE BACCALAUREATE COURSES

Fire & Emergency Services Administration
Analytical Approaches to Public Fire Protection
Applications of Fire Research
