Protect people, pets and property from wildfire. Following these tips, along with making improvements to the landscape surrounding your home, can help reduce your wildfire risk.

Check your home's roof and the roofs of outbuildings for areas where leaves, pine needles and other materials can build up and burn.

Regularly clean leaves, pine needles and anything that can burn from gutters.

If you live in the wildland urban interface, consider replacing your roof with Class A fire-rated materials and installation assemblies.

Seal gaps around windows, doors and eaves with caulk.

1/8-inch noncorrosive metal mesh.

1234

Screen all vents with

Replace or build decks with fire-resistant materials.

Seal the bottom of the garage door.

Plan and practice how to evacuate early.

Build or retrofit your home with dual-paned, tempered glass windows.

Remove anything that can burn from underneath decks.

Check with local officials to make sure your wildfire safety enhancements meet required codes and standards.
