

Fire Department Overall Run Profile as Reported to the National Fire Incident Reporting System (2020)

Fire department runs by major incident type category (2020)

In 2020, fire departments responded to 26,959,000 incident runs or calls as reported to the National Fire Incident Reporting System (NFIRS).

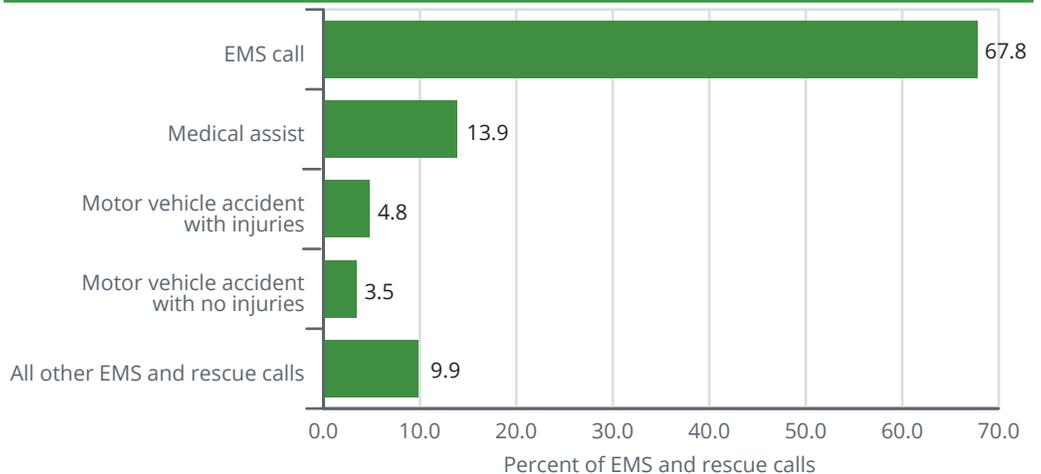

Source: NFIRS 5.0.

Note: Total does not add up to 100% due to rounding.

Of the reported runs, 17,297,200 (64%) required emergency medical services (EMS) and rescue services.

EMS-designated calls were, by far, the leading specific type of fire department run within the EMS and rescue service calls category (68%), followed by medical assists (14%).

Specific types of fire department calls within the EMS and rescue service incident type category (2020)
